Summary

Highly skilled and results-oriented WordPress developer with over 8 years of experience creating custom themes, plugins, and solutions for a broad range of clients on Upwork and in freelance roles. Proven ability to optimize website performance, integrate APIs, and ensure responsive design. Passionate about leveraging WordPress to create user-friendly and engaging websites that generate results.

Experience

MARYLINK.io • France
June 2016 - Present

WordPress Developer • Contract

- Designed and developed a complex plugin for a social publishing platform.
- Managed user roles and permissions for commenting, voting, and rating within a multi-step workflow.
- Integrated seamlessly with WP Ulike, wpDiscuz, and BuddyBoss Platform plugins.
- Refactored code for better maintainability and implemented unit testing for improved quality.

Upwork
November 2015 - Present

WordPress Developer • Freelance

- Developed custom plugins for various clients, including a booking plugin with Google Calendar sync and functionalities for Divi page builder.
- Customized the checkout system of Easy Digital Download and extensions for WooCommerce, Advanced Custom Fields, and Gravity Forms.

King's Crest Global • Spain
February 2024 - April 2024

WordPress Developer • Contract

- Optimized website speed using WebPageTest, reducing load time from 18-22 seconds to 6-9 seconds. Implemented techniques like script deferral, image optimization, and code minification.
- Modified the WooCommerce PDF Invoice and removed unnecessary shipping sections from paypal payment page for a digital product store.

upnrunn technologies pvt ltd
May 2018 - October 2018
