Summary

WordPress Developer with over 10 years of experience in custom plugin development and large-scale Multisite environments. Recent experience at Incsub (CampusPress and Edublogs) focused on Gutenberg block development, accessibility best practices (WCAG), and technical code reviews. Builds secure, high-performance web solutions through clean code and modern CI/CD workflows.

Experience

Incsub July 2024 - February 2026
WordPress Developer • Remote • Full-time

- Developed custom Gutenberg blocks using Advanced Custom Fields (ACF) Pro and performed bug fixes and improvements to existing blocks.
- Built a custom 2FA security plugin from scratch and maintained a mix of in-house and third-party plugins, handling feature updates, bug fixes, and refactoring to address PHP deprecations.
- Implemented accessibility improvements based on WCAG standards, improving usability for keyboard and screen reader users.
- Performed technical reviews of third-party plugins to identify performance and security issues and applied patches where necessary before integrating them into large-scale Multisite networks.
- Contributed bug fixes for Edublogs and implemented feature improvements for the CampusPress Flex theme.
- Reviewed pull requests from team members and clients, helping to identify and fix issues before they reached production.
- Set up client repositories in Bitbucket and configured webhooks and SSH keys to support deployment workflows to AWS. Used Pipelines to manage theme and plugin updates and apply patches.

MARYLINK.io • France June 2016 - August 2024
WordPress Developer • Remote • Contract

- Designed and developed a social publishing platform with multi-step workflows using custom post types.
- Built a permission system allowing different user actions (e.g., commenting, voting, rating) based on the workflow stage.
- Managed the platform's transition from the Kleo theme to BuddyBoss, integrating features with WP Ulike and wpDiscuz plugins.
- Refactored legacy codebases using OOP principles, namespaces, autoloading, and traits to make the code easier to maintain and add new features without breaking things.
- Wrote unit and integration tests to keep core features stable.

King's Crest Global • Spain February 2024 - April 2024
WordPress Developer • Remote • Contract

- Improved site performance by 60% (reducing load times from 22s to under 9s) by implementing script deferral, image optimization, and code minification.
- Customized WooCommerce PDF Invoice logic to display specific data based on different digital product types.
- Adjusted PayPal API integration to remove unnecessary shipping requirements at checkout for digital-only products.

upnrunn technologies pvt ltd • India May 2018 - October 2018
WordPress Developer • Remote • Contract

- Developed custom add-on plugins for Gravity Forms to meet specific client requirements.
- Developed and launched the BP Events Calendar plugin on WordPress.org, creating a bridge between BuddyPress and The Events Calendar for front-end event management.
- Fixed technical bugs and added new features across multiple client websites.

Upwork November 2015 - July 2024
WordPress Developer • Freelance

- Developed custom plugins, including a booking plugin with Google Calendar synchronization and modules for Divi page builder.
- Customized Easy Digital Downloads (EDD) checkout systems and built add-on plugins for WooCommerce, Advanced Custom Fields (ACF), and Gravity Forms.
- Provided long-term technical support and custom development for recurring clients.

Skills

Core Development: PHP (OOP, Namespaces, Autoloading, Traits, Interfaces), JavaScript (ES6+, jQuery), MySQL, HTML5, CSS3/SCSS

WordPress: Gutenberg Block Development, WordPress Multisite, WooCommerce, Easy Digital Downloads (EDD)

Frontend & Integrations: React, REST API, Stripe, PayPal

Tools & DevOps: Git/GitHub, CI/CD, Docker, Gulp, Webpack, Composer, NPM, PHPUnit, Jest

Products

WCAPF – Ajax Product Filter for WooCommerce

Develop and maintain a WooCommerce product filtering plugin with 9,000+ active installs and positive reviews on WordPress.org. Manage both free and premium versions, provide user support, and keep it compatible with the latest WordPress and WooCommerce releases.

Certifications
